

THE FLOWER CUP

Est. 2016

We are an independent, botanical coffee shop serving up an all day brunch from local, fresh ingredients.

We have a full vegan menu, gluten free options and change our dishes seasonally.

We serve carefully hand-crafted speciality coffees and a fine array of loose leaf teas.

Sustainability is of huge importance to us. This is reflected in our use of eco-friendly, compostable packaging. You can also purchase a KeepCup from us and receive all your takeaway coffees for £2.

We recently opened our sister shop The Violet Palm next door, so if there are any plants in here you like, why not pop next door and take one home with you!

We hope you enjoy your time with us!
